Loaded trigger finger  
I don't wanna settle- second best  
Lack of idle chatter  
freedom from the morons you call friends

(chorus)  
Flowers- on the dash board  
Spending hours- talking to the wall  
Power- where we're going  
if you don't already know  
I found out- too late  
I found it out  
Your too late smile's a frown- too late  
I found it out

Silence now for hours  
I don't need to know if you're impressed  
Why should it matter?  
You must have another- to arrest

Flowers- on the dash board  
Spending hours- talking to the wall  
Power- where we're going  
as if you don't already go  
I found out- too late  
I found it out  
Your too late smile's a frown- too late  
I found it out
