"Little TV"

Visit "[Little TV](#)" on MotoLyrics.com

Bat out of hell- your head is starting to swell
You got a song in your pocket
dying to sell
You're not alone- we're both at home
So you run around block
to try to find your salvation
to try to find your salvation

You're not alone- we're both at home

(chorus)
Can't you see me- lying on the sofa
watching a little TV

Strange little man
we must have foiled your plan
you've got another one coming
break up the band
You're not alone- we're both at home
So you wind up the clock
and try another location

cursing the friend- who couldn't listen again

You're not alone- we're both at home

(chorus)

swimming in the ocean

(chorus)

getting with the notion
See me- watching a little TV
