Yer a human thing
Who yah think that you're foolin?
Yer not foolin?, not foolin' me
Yer a human thing
Yer so busy frontin'
Confusin? courage and acting
Move me
Move me
Could it really be so wrong
To let somebody, somebody see.
Move me
Move me
A girl can keep it together
Come on now, you know you we'll take the weather
Come on now, you know we love your weather
You got roots cannot be torn from under
Won't you shake it like you've never done before
You've got roots cannot be torn from under
Won't you shake it like you've never done before
You're a human thing
