I've seen these people described as mad  
But find men kissing too odd  
Say all their friends are gay when in fact  
They gave a man in tight vest a quick nod

And all those threats if you keep kissing  
They're gonna go report you to god  
Yet if Christ really had that many disciples  
There was probably one of you in his squad

And any news you receive would lead you to believe  
Of the other world little is known  
So that every gay presenter should really wear a  
sweater  
With kids don't try this at home

There are gay men you've knocked homophobics clean  
out  
When most would have turned and ran  
Gay men who hate it when they get called queer  
And gay men who don't give a damn  
Some gay men go wearing women's makeup  
Just to prove to themselves they can  
And on the masculine side of this whole wide world  
There is no 101% man

Those who have only seen Gay Pride  
Think it's a life long license to shock  
But men have kissed men since way back when  
If you were caught you'd be put in a stock

And any news you receive would lead you to believe  
Of the other world little is known  
So that every gay presenter should really wear a  
sweater  
With kids don't try this at home

There are gay men who've knocked homophobics clean  
out  
When most would have turned and ran  
Gay men who hate it when they get called queer

And gay men who don't give a damn  
Some gay men go wearing women's makeup  
Just to prove to themselves they can  
And on the masculine side of this whole wide world  
There's no 101% man

And when the Tom Robinson band sang  
"Sing if you're glad to be gay"  
We all joined in, and though most of us weren't  
The song seemed to show us the way

And as the song reached it's end you looked for the  
friend that  
That made singing along feel O.K  
It aint San Francisco but your end of term disco  
And the dancefloor's beginning to sway

There are gay who've knocked homophobices clean out  
When most would have turned and ran  
Gay men who hate it when they get called queer  
And gay men who don't give a damn

Some gay men go wearing women's makeup  
Just to prove to themselves they can  
And on the masculine side of this whole wide world  
There's no 101% man
