You know your problem

You keep it all in

You know your problem

You keep it all in

That's right

The conversation we had last night

When all I wanted to do was

Knife you in the heart

I kept it all in

You know your problem

You keep it all in

You know your problem

You keep it all in

Midnight, a husband getting ready to fight

A daughter sleeps alone with the light

Turned on, she hears but

Keeps it all in

Just like that murder in '73

Just like that robbery in '62

With all these things that have happened to me

I kept them all in

Why do you keep on telling me now

You know your problem

You keep it all in

You know your problem

You keep it all in

That's sweet

That conversation we had last week

When you gagged and bound me up to my seat

You're right, I do
