Behind closed doors, there's never any light
Behind closed doors, there's never any light

Mix a little bit of love and violence,

Mix a little bit of truth and lies.
I see you, I feel you.
Push and pulling me for my alliance,
But nothing's ever gonna make things right.
I feel you, I see you.

The doors close so no one outside hears
But I know the sound of your worst fear
It's cutting through me, it's suffocating me
Behind closed doors, there's a lifetime to forget

Mix a little bit of our denial,
Mix a little bit of black and white.
I feel you, I need you.
Growing up I learned from your defiance,
But nothing's ever gonna make things right.
I need you, I feel you.

The doors close so no one outside hears
But I know the sound of your worst fear
It's cutting through me, it's suffocating me
Behind closed doors, there's a lifetime to forget

Behind closed doors, there's never any light
Behind closed doors, there's never any light

Mix a little bit of love and violence,
Mix a little bit of truth and lies.
I see you, I feel you.
Push and pulling me for my alliance,
But nothing's ever gonna make things right.
I feel you, I see you.

The doors close so no one outside hears
But I know the sound of your worst fear
It's cutting through me, it's suffocating me

Behind closed doors, there's a lifetime to forget
