

## The Bee Gees

### "August October"

Visit "[August October](#)" on MotoLyrics.com

Autumn and Friday the winds blew  
July , September , I knew you  
And now as I sit on the sand hill  
I sing our song to the sea

August , October  
Mid-April , November , May  
Beckoning hands made you fly  
I cry , it's curtains today

In August , October the grass grew  
The sky was blue and I want you  
Now as I look out my window  
I see the world carry on

August , October  
Mid-April , November , May  
Beckoning hands made you fly  
I cry , it's curtains today

August , October  
Mid-April , November , May  
Beckoning hands made you fly  
I cry , it's curtains today

I cry , it's curtains today  
I cry , it's curtains today
