You're gonna fix my heart  
You're gonna free my soul  
Not many learn what  
The two of us can do  
Or what we do it for  
Sign my name  
I'm gonna join your club  
You give me love and there's  
Two of us to feel  
Just say the word  
And I'm giving my love to you

(CHORUS)

You got me backtafunk  
And I'm still turning  
Got me backtafunk  
And I'm still turning  
I can't explain, no alibi  
The rhythm got me paralyzed  
You got me

You call it deja vu  
Of being there before  
So many lose what  
The few of us can find  
And never mention  
You're gonna break my will  
You're gonna take me down  
So many pay  
When the two of us can steal  
So give what I want  
And I could be a king for you

You got me  
Backtafunk  
And I'm still turning  
Got me backtafunk  
And I'm still turning  
You got me backtafunk  
I was so disorganized  
Rhythm cut me down to size

You got me

Help me I'm in trouble deep

High as I can go

It's no crime

There may be love on the street

And I'm bad enough

You got me drowning in my sleep

But I will find you when I wake

And it's time

You got me backtafunk

Backtafunk to back

Backtafunk

Backtafunk to back

Backtafunk

Backtafunk to back

Backtafunk

Oh, oh I'm still turning

Backtafunk

Oh, oh I'm still burning

Backtafunk

Oh, oh I'm still learning

(Repeat through fade)
