

## The Bee Gees

### "Could It Be"

Visit "[Could It Be](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Look at me , I don't know what I'm doin'  
ever since I looked at you  
How did I get this crazy feelin'  
Could it be , I'm in love with you

Ever since I saw you in the moonlight  
I've had this feeling through and through  
Since that time , I haven't done a thing right  
Could it be , I'm in love with you

Golly gee , I don't know where I'm goin'  
I'm tryin' to make you see  
Oh boy, I got to make her fall in love with me , oh

Night after night , I'm always dreamin'  
Why don't you make those dreams come true  
Can't you see how much I really love you  
Why don't you learn to love me too

(break)

Golly gee , I don't know where I'm goin'  
I'm tryin' to make you see  
Oh boy, I got to make her fall in love with me

Night after night , I'm always dreamin'  
Why don't you make those dreams come true  
Can't you see how much I really love you  
Why don't you learn to love me too  
Love me too  
Love me too
