

## The Bee Gees

### "Country Woman"

Visit "[Country Woman](#)" on MotoLyrics.com

Country women now, what you gonna do with your life  
Country women now, why don't you get out of this life  
Leave my life alone  
The first time I met you I knew you were the devil's  
daughter  
You came on like a river , doin' all the things you  
oughta  
You're a self made women ,baby, not a made-to-order  
If you had your way , I know you'd make me stay  
And that would only bring me down

Country women now, what you gonna do with your life  
Country women now, why don't you get out of this life  
Leave my life alone

(break)

Country women , country women ,country women  
country women, country women , ahh....

Country women now, what you gonna do with your life  
Country women now, why don't you get out of this life  
Leave my life alone  
Leave my life alone

Country women now , country women now, country  
women now,  
Country women now , country women now, country  
women now, (fade)
