Hey there woman , I came to California
to find a dream , I found you girl
Hey there baby , you pointed my direction
with tender love ,changed my world
I've been reachin' for love so long
I've just a holiday , yeah , to have you here
I've been running down avenues
so filled with solitude and restless fears

Danger , slow down , hauntin' me
Your love , turnin' me round , rescued me
Danger , warnin' , I've seen the signs
Oh , oh , oh , here I go , this heart of mine

I set sail on a rainy day
Steerin' my way through a cloudy sky
In this heaven my dreams are never ending
They're sending me through space and time
You're the center of all my inspiration
It's a wonderland , it's so divine
I can't escape from this energy
You put a spell on me yeah , no turnin' 'round
Power of love has no gravity
It's got a hold on me , I'm paralyzed

Danger , slow down , hauntin' me
Your love , turnin' me 'round , rescued me
Distant dreams of yesterday ,
when I was down and far away
You promise me love ,but I'm scared of losin'
what I got , what I got today

Danger , slow down , hauntin' me
Your love turnin' me 'round , rescued me
Danger , warnin' , I've seen the signs
Oh, oh ,oh , here I go , this heart of mine

Danger , slow down (fade)
