"Follow The Wind"

I'm so weary from holding this load
But it's only , love for you, that I walk this lonely road
I must follow the wind , follow the wind
And the wind will take me home before the cold

Ev'ry star I have counted
Each flower I have seen
But the place where I'm going , there's no grass as
green
I must follow the wind , follow the wind
And the wind will take me home where I can dream

In the hour I am lonely, you're love will be mine
I will stay in your arms dear, until comes the time
I must be on my way for my home is anywhere
I have no time to stay , I have no time to care
I must follow the wind , follow the wind
As the wind gently blows in my hair

(break)

I must follow the wind , follow the wind
As the wind gently blows in my hair
I must follow the wind , follow the wind
As the wind gently blows in my hair
