I see she
Knowing what I came here for
Get a little of your womanifestation
If I can pinpoint this feeling
When you gonna let it grow
We can draw the line on where we
Let the fingers go

Now I know me
Never wanna lose control
Making me the subject
Of your warm initiation
If I can pinpoint this feeling
When you gonna let it show
You make me nervous but it's now or never

Oh oh
You can be my message from above
And it's time to say you're sorry
We can sanctify our love
Oh no
And you and I we're written in the wind
You can't just go movin' out
You can't leave me when I'm movin' in
I want to be your human sacrifice
I want to be your lover
I want to be your human sacrifice

I want to be your lover

It's you or me
Gotta be a kill or cure
Maybe undergo a lover's operation
Nothing cuts like a knife can
You don't wanna hurt me more
Look at all that damage
We could do together

Oh no
You can wear me closer to the bone
It don't work to make me worry

But the demon seed is sown

Oh no

And you and I we're written in the sky

You can't make me hold on

Better you shoot my love between the eyes

Your eyes on me on this table where I lie

And what I see as fact is fiction

You won't let me die

And I'm bound to be abused

I won't let you cut me loose

This love is out to get you

When the blood begins to flow
