I don't want your silver castle
And your money like a King
I don't want your lovely woman
She don't even mean a thing

For I won't live for love or money
Make me a slave to none
I won't live for love or money
Give me them as they come
Give me them as they come

All your money will only hurt you
Will only make you blue
Your lovely woman will love and leave you
Will break your heart in two

Cos I won't live for love or money
Make me a slave to none
I won't live for love or money
Give me them as they come
Give me them as they come

Once I had me love and money
I was standin' so high
I lost my love and I lost my money
A lonely man am I

Now I won't live for love or money
Make me a slave to none
I won't live for love or money
Give me them as they come
Give me them as they come

Now I won't live for love or money
Make me a slave to none
I won't live for love or money
Give me them as they come
Give me them as they come
