Whoa whoa lucky me  
Oh can this be , all my dreams have come true  
Lucky me got you  
I didn't realize , until I looked in your eyes  
And when you held me close to you  
Baby, that's when I knew

Oh well , I walk down the street and my happy heart  
sings  
I've got this world on a string  
You wanna know the reason , she's standing by my  
side  
To love me and kiss me till the day I die

Whoa whoa lucky me  
Oh how happy we'll be  
All my dreams have come true  
Lucky me got you

(break)  
Lucky lucky me  
(break)  
Lucky lucky me

Oh well, I walk down the street and my happy heart  
sings  
I've got the world on a string  
You wanna know the reason , she's standing by my  
side  
To love me and kiss me till the day I die

Whoa whoa lucky me  
Oh how happy we'll be  
All my dreams have come true  
Lucky me got you

All my dreams have come true  
Lucky me got you  
Lucky me
