

## The Bee Gees

### "One"

Visit "[One](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I feel my heartbeat,  
when you run your fingers through my hair, oh yeah  
I can tell you,  
I can feel you by my side when you're not there, oh  
yeah  
Just as my life fades to darkness  
You make me see the light.  
Show me that my search is over  
I pay the price, I pay the price.

Tell you someday, baby you and I should be one, one.  
Do it always, brighter than the eye can see, we hide the  
sun.

The taste of love is sweet, like honey on the vine,  
like the wind that feeds the fire, two souls become  
entwined.  
Someday baby you and I should be one, one.

#### VERSE 2:

So I'm standing on this corner  
Tall enough to touch the New York sky, oh yeah  
Love is so blind  
I just cannot hear or see the world go by, oh yeah  
Someone can love so completely  
One kiss should break the seal.  
Truth can be stranger than fiction  
This love is real  
This love is real.

Tell you someday Baby, you and I should be one, one.  
Do it always, brighter than the eye can see, we hide the  
sun.

#### BRIDGE:

Ah we are one, we are one.

#### VERSE 3:

I will follow  
Count on me, I'll never let you down, oh yeah  
My devotion

Loving like an ocean I would surely drown, oh yeah  
You'll be my only possession  
I'll be a slave to you  
We hold the power together  
Just me and you  
Just me and you.

Tell you someday Baby, you and I should be one, one.  
Do it always, brighter than the eye can see, we hide the  
sun.  
Tell you someday Baby, you and I should be one, one.

I think somebody might  
I go down on my knees  
You see love can be blind  
It's there under your fear  
I know I must be strong  
And go into the night  
And see all that I want

[You know my life is in your hands,  
and every breath you take is planned  
and all this love goes on forever.]

Tell you someday Baby, you and I should be one, one.  
Do it someday Baby, you and I should be one, one.  
Do it someday Baby, you and I should be one, one....  
(Repeat to Fade)
