I wandered into your wonderland with eyes open wide  
You turn me into your yesterday  
But you will remain inside of me  
Like I care for you  
Oh, I care for you

Run wild , out on the edge of time , child  
Carry your dreams away , love  
No one can hold you now  
For you are an island

I may be broken but understand my love will get by  
There will be others along the way , my love  
They will try to care for me  
Like I care for you  
Oh , I care for you

Run wild , out on the edge of time , child  
Carry your dreams away , love  
No one can hold you now  
For you are an island

Run wild , out on the edge of time , child  
Carry your dreams away , love  
No one can hold you now  
For you are an island

Run wild , out on the edge of time , child  
Carry your dreams away , love  
No one can hold you now  
For you are an island ( fade)
