What am I wishing for
Something I've had before
I've seen your face in the firelight
I've needed your love in the dark of the night
What am I wishing for
Someone like you , someone like you

I know that someday , my love, it's gonna be all right
Someday , my love, waiting for you tonight
Love grows , I know, it's gonna be all right now

What am I wishing for
Something I've had before
I've seen your face in the windowpane
I've needed your love when you're home again
What am I wishing for
Someone like you , someone like you

(break)

I know that someday ,my love, it's gonna be all right
Someday , my love, waiting for you tonight
Love grows, I know , it's gonna be all right now

What am I waiting for
Someone like you , someone like you

I know that someday , my love, it's gonna be all right
Someday, my love ,waiting for you tonight
Love grows, I know, it's gonna be all right now

What am I wishing for
Someone like you
Someone like you
Someone like you (fade)
