Ah.....

I just don't know what you can achieve  
When you say you need me and then leave  
Ev'ry thing you tell me is a lie  
You and I just don't see eye to eye

Soon you'll run , there is no fun remaining  
The life I once enjoyed you've surely taken  
I'm convinced for years, I've been your clown  
The heart I gave , well you have just forsaken

You are the worst girl in this town  
You are the worst girl in this town

Ah.....

There are lots like you , that it's not true  
I'd be a fool to stay and join the queue  
You've stayed with other men behind my back  
I know that if I stay , I'll surely crack

The life I once enjoyed you've surely taken  
I'm convinced for years , I've been your clown  
The heart I gave , well you have just forsaken

You are the worst girl in this town  
You are the worst girl in this town

Ah.....

You are the worst girl in this town
