Well she walks like you in so many ways  
It's a different look  
It's a different time of day  
One look in her eyes  
How can I make you understand  
She's the one good thing that's happened in so many  
years  
There's been so many tears  
When we lost the dream  
And the winter came  
And you said goodbye  
And I don't want another reason to cry

You be all you wanna be  
You got the longest night  
Baby, be alone  
I share my dream with someone else  
I don't wanna talk about her

This women - she's tearing my world apart  
This women - don't know what she's doing  
This women - touches me and I lose control  
She's living inside my soul  
This women - I don't even know her name  
This women - don't know what she's doing  
This women goes through me like a hurricane  
Falling in love again

To make those long legs mine - is all I care about  
She's got so much to give - I got to be the one  
I got to have  
Someone to hold  
I got to make it with that women  
When the nights get hot  
And she goes walking by  
And the city lights - and the city lights  
They make you blind  
I go insane  
But am I crazy if she feels the same  
You believe what you believe  
You got the darkest night

Baby , be alone  
I take my love to someone else  
She was made to measure for me

You be all you wanna be  
You got the longest night  
Baby , be alone  
I share my dream with someone else  
I don't wanna talk about her

This women - she's tearing my world apart  
This women - don't know what she's doing  
This women - touches me and I lose control  
She's living inside my soul  
This women - I don't even know her name  
This women - don't know what she's doing  
This women goes through me like a hurricane  
Falling in love again
