Somebody loves you , somebody cares
You own the love that somebody shares
You should be with me , spending your time
Loving me , loving me now
Holding me only , but now

I'm just watching the hours go by
Nothing to do but cry
Now you are gone
I should be glad
But I love you only
So that's why I'm sad

Go to your baby , don't make him cry
Each time you kiss him , remember I die
Walls are my neighbors , shadows my friends
Keeping me , watching me there
All of the things we shared

I'm just watching the hours go by
Nothing to do but cry
Now you are gone
I should be glad
But I love you only
So that's why I'm sad

(break)

Walls are my neighbors , shadows my friends
Keeping me , watching me there
All of the things we shared

Now I'm watching the hours go by
Nothing to do but cry
Now you are gone
I should be glad
But I love you only
So that's why I'm sad (fade)
