Come on

Me I've got something to prove
These sleepless nights of thinking
I can't find the time to move
When I've just been out drinking
And you
You've got a lot to lose
The pains hold you down
Sometimes you sit and think to yourself
How did I lose the crowd

I don't know what to do
Without something to prove

I think I'm losing
I think I'm lost
Sometimes I lose the plan
And pay the cost
I think I'm losing
I think I'm done
Sometimes I lose my head
And come undone
What have we become

Me I'm watching all my steps
To see which way I fall
Sometimes our shadows
Lie to our face
And we out do them all
You you need to step outside
And really see the world
You can't let your thoughts take hold
Feeling oh so insecure

I don't know what to do
Without something to prove

I think I'm losing
I think I'm lost
Sometimes I lose the plan

And pay the cost
I think I'm losing
I think I'm done
Sometimes I lose my head
And come undone
What have we become

You're not the one that was meant to stay
You're not the one you were only prey
You're not one for me one for me
You're not the one
You're not the one that was meant to be
You're not the one I can't make scream
You're not the one for me one for me
You're not the one

I think I'm losing
I think I'm lost
Sometimes I lose the plan
And pay the cost
I think I'm losing
I think I'm done
Sometimes I lose my head
And come undone
What have we become
What have we become
What have we become
