### "El President"

Visit "[El President](#)" on MotoLyrics.com

(I. Monteiro)  
Yeah yeah ya...  
Came from the skies  
Burst through the gates  
With no mercy or disguise  
With their hearts set out in flames  
I know; I've seen the masterplan...  
Well I'm just a man (I am just a man)  
I'm not giving in  
All the people understand  
'Cos they all fell down and prayed  
I know; I've seen the masterplan:  
"Kill the President"  
They killed the President  
They killed the President  
Came from the skies (Came from the skies)  
In all shades of green  
We can always justify  
We can measure up your dreams  
I know; I've seen the masterplan:  
"Kill the President"  
They Killed the President  
Yeah yeah ya...  
Yeah yeah ya...  
Yeah yeah ya...  
They killed the President  
They've killed the President  
I'm just a man
