"Superglider"

Visit "[Superglider](#)" on MotoLyrics.com

There's a star for everyone
But some get lost in darkness
When your pretty smile is gone
When I'm looking for a
Superglider, Superglide
Superglider

??Life all in my dream, lay your eyes??
??....so called hate??

All the luck you had was gone
Tangled in a highway
And the lights were coming down
When I'm looking for a
Superglider, Superglide
Superglider

??Life always follows me, lay your eyes also green??
??smile... so called hate??

There's a star for everyone
