It's biting it's teething it's biting I'm bleeding  
It's calling it's crawling it's calling and I'm falling  
The perfect sound of middle ground  
Pull me under before I try to drag you down  
Someone has to pull me under before  
I try and drag you drag you drag you down

They're fighting they're growing they're fighting and  
they're crowing  
I'm biting I'm teething i'm biting I'm bleeding  
The perfect sound of middle ground  
Pull me under before I try to drag you down  
Someone has to pull me under before  
I try and drag you drag you drag you down

Biting and teething and bleeding  
Pull me under before i try to drag you down  
Someone has to pull me under before i try to drag you  
down  
Someone has to pull me under before i try to drag you  
down  
Someone has to pull me under before i try to drag you  
drag you drag you down
