Keep on repeating something.  
Keep on repeating something.  
Keep on repeating.  
I gave it all, I gave it up, then,  
I took it in and got enough but,  
I try to cancel out,  
Whatever I can't laugh about.

So what does that say,  
There can't be anyway?  
I've done my worst and no one knows.

One more day to fool them all.  
One more day to drop the ball.  
One more day to fade away.

Fill a head with sand just to make it better.  
I had the chance to beat it in, but I never.  
I should have taken it right then.

One more day to fool them all.  
One more day to drop the ball.  
One more day to fade away.

Now you've been taken.  
You won't stop shaking.  
Embrace every minute,  
You're all that's left in it.  
It's not happening,  
Some other day you'll fool them all.  
One more day to drop the ball.  
One more day to fade away.
