Hey yeah.. ohh ahh..

There is ice, alive, turn ice into fire
I want, I need, to feel such desire
A pain lies deep, in the heart of my soul
This truth, unfolds, and I'm losing control
And I'm losing control..

I drift in this place, I can't see ahead
Searching around, for the answers..

[x2]

And it's cold, outside, and I feel the winter
There's a chill, in the air, of secrets untold

Hey yeah.. ohh ahh..

Tonight, I crave, sunlight on my face
For I, can see, it's lonely in space
A touch, can make, the senses awake
But fear, controls, your every mistake
Your every mistake..

I drift in this place, I can't see ahead
Searching around, for the answers..

[x4]

And it's cold, outside, and I feel the winter
There's a chill, in the air, of secrets untold

Hey yeah.. ohh ahh..

And it's cold outside.. and it's cold, outside
And it's cold outside..

[x4]

Winter.. I feel the winter
