1- Baby, come see me, come see me  
I wanna hold you when you next to me  
Can't you see? I need you here

Baby, come see me, come see me  
I wanna hold your body next to me  
Can't you see? I need you here

[Slim]  
How could you do this, babe?  
When I've been thinkin' of you  
Girl, in your heart you know you don't feel this way  
Just let me touch you, babe  
And let me hold you real tight  
Everytime I'm with you, it feels so right

Repeat 1

[Slim]  
Maybe you think I'm crazy  
For falling in love with you  
Girl, everytime you stop  
My heart falls for you, girl  
No matter how you could  
It all comes down to one thing  
I wanna be with you, so right now come see me

Repeat 1

[Black Rob]  
You can come see me and all your worldly desires'll be  
free  
As I lick you down from your head to your feet  
Milk baths, talking, champagne, sips and suds  
And once I crash the boards, you show me nothing but  
love  
To the fullest, I get money, capri, sweat and bullets  
Sittin' in the hotel suite, for layman, you on the E  
Think about it, like Puff Daddy say, "You'll See"  
Let's make it real, all you gotta do is come see me  
Word!

[112] (Slim)  
Baby (I need your love)  
You and me  
We could be there together (I need that old feeling)  
Forever (Nobody can compare)  
If you only just gave me a chance  
(Girl, if you give me a chance to love you  
Just let me show you I love you)  
To just love you  
I will show you I love you (I will show you I love you)

Repeat 1 to fade

[Slim]  
Oh, baby  
Ooohh  
I wanna hold you, baby  
Where you are is with me  
Oohh  
Oh, baby  
Woo  
I wanna hold your body  
Oh yes  
Oh, baby  
Oh, love you for the rest of my life  
I gotta have your love  
Gotta have, gotta have you right now  
Ooh, baby  
I feel so lonely  
I need you right now  
Gotta have...
