For hours in vain not a single call
I must tell you my heart is turned in two
And there is no way gettin' over you
To many times you made me cry
A hundred tear drops from my eye
I cannot suffer this way
I cannot stand it one more day
Chorus:
Sea of tears can't ease my pain
I need you baby like a flower needs rain
Now my love I see it clear
Neither your heart or spirit is here
Look into your eyes, there is no light
All the fire is gone, it isn't right
In your arms, it feels so cold
It's not me you wanna hold
Indispensable like the blood in my vein
Can't you see that you are causin' me pain
It's a shame, but I could not see
That the love between us wasn't meant to be
Chorus
Where is your love for me baby
Can't you see that you are causing me pain
Too many times you made me cry
I cannot stand it one more day
Chorus
