Oh yeah,  
That's the way we wanna live,  
That's the way we wanna live  
And we're doin' alright  
Oh yeah,  
That's the way we wanna live 'cause we got it goin' on  
And nothing can go wrong  
We're alright  
The first one she's always in control  
I tell you I'm too strong to fall for a bootie call  
The second one she likes to play with fire  
Since a child I've been so wild, that's who I am  
I may be like a kittycat,  
But dog my once, and I never come back fore more,  
Yeah, that's for sure  
We're proud of what we are,  
And we stand for what we do  
There's no need to play cool, don't let prejudice rule  
Chorus  
The third one she don't play by the rules  
I play the game the want I want,  
don't treat me like a fool  
The fourth one she's never satisfied  
I like to go my way through life like I decide  
I may be like a kittycat,  
But dog my once, and I never come back fore more,  
Yeah, that's for sure  
We're proud of what we are,  
And we stand for what we do  
There's no need to play cool, don't let prejudice rule  
Chorus  
You choose the way you wanna live  
So do it right  
Chorus
