Boat full of kilos, straight from amigos
Cocaina hero, scar face a nino
Brick seen your face like craig hitting d bow
And each one of these go for 300 c notes
Suit briefcase, full of paper like a lawyer
Just in case I catch a case, it's enough to pay the
lawyers
Riding with the sawyer, jack boys try your luck
Got a team full of shooters, still kill you if you duck
Started from the bottom, now I own the building yeah
I'm up
I was riding with them chickens like a foster form's
truck
On the road to riches highway with the blow
My stomach drop everytime I see the highway patrol
Blinded by them lights, but nigga this the life
Feds listen to what I'm spitting with intentions to
endite
Working for the white man, nah, they ain't really
paying me
So I'am whip the white just to get em back from
slavery

[Hook]

Money and the power, hard in the A...
Gutter from the grinding, now the whole world is ours
Fiends steady copin, soon I'm clockin in the hour
In the building with the flow, I'm the fuckin unit
bomber
Cocaine flow, all I know is dope
Cocaine flow, is that cocaine flow
Cocaine flow, all I know is dope
Cocaine flow, is that cocaine flow

Cocaine flow, may can blow
On everything I love I got it and it's raw
Powder be the name, self explanatory
Every trip I was facing 10, made a jury
Minimum wage never entice me
My road models they'll crack and stay icy
Bling, bling, getting cash money

But Iâ€™m only rappin birds and some rain mummies
Kingpin tuck, with the hyeroglyphics
Got my paper up higher so they actin different
The haters mad, the hoes love it
Full mag, gold mags, double strapped shawty
Fuck your life and your wife at the asme time
Iâ€™m in the drop head, we donâ€™t have the same grind
I be playing mines, nigga thatâ€™s a fact
Real nigga ghost, making scale macs

Cocaine flow, all I know is dope
Cocaine flow, is that cocaine flow
