I just want to take you out and get you drunk  
So I can have my wicked way with you.  
I'm just being honest 'cause I know the other guys  
are thinking just the same way too.  
And I'm not going to lie and say  
that I will take you out to dance, there's just no chance.  
'Cause I don't even like the same music you do.  
I just want to have my wicked way with you

Don't you fight it.  
'Cause I know you're going to like it  
Show me some skin I might bite it.  
Oh, I want to have my wicked way with you

So I'm not going to come over and meet your mom and  
dad,  
They know that I was bad.  
And I don't want to meet your friends  
Or just pretend I like you.  
And I don't want to talk about what happened  
On your favorite t.v. show.  
I just want to get you close enough  
So I can take off all your clothes.

And I'm not going to make you cry or break your heart,  
Girl we don't have the time.  
I'm just thinking of three hours or more  
So I can have my wicked way with you.

Don't you fight it.  
Don't knock it till you've tried it.  
Show me some skin I might bite it.  
I want to have my wicked way with you.  
My wicked way with you.  
My wicked way with you.
