"Gone"

Visit "[Gone](#)" on MotoLyrics.com

Hey now sister won't you come and bless my soul
I been a long time comin down the mountainside
You see I fell from a spaceship only stuck here for a
little while
And I'd very much like to fall in love with you
If you would if you would I'd like to know
will you think of me when I'm gone?

Sister live a long time I don't want to fight with you
See my head's in a vice and I don't know who I am in
the mornin
And when I wake in the mornin and I look through my
window
I see sun skies sand sea would you fill your heart with
me?
If you would, I'd like to know
will you think of me when I'm gone?
