We came to fame with our guitars screaming
Wall-to-wall bass and face-to-face bawling
We're your voice of choice, so just fall in line

We came to fame with our guitars screaming
Wall-to-wall bass and face-to-face bawling
We're your voice of choice, so just fall in line

I'm multi-identity
A cure for my sanity
My eyes are all shiny bright
They light up the darkest night

If you tell me your secrets
I can tell you my lies
Then we're both in the same boat
We're in disguise

I'm not in a superstore
I'm not up for sale at all
You cannot impersonate
A champ and a heavyweight

If you tell me your secrets
I can tell you my lies
Then we're both in the same boat
We're in disguise

We came to fame with our guitars screaming
Wall-to-wall bass and face-to-face bawling
We're your voice of choice, so just fall in line

You can save the violins, I've heard them much too
much
I'd crush them into sawdust and electrify my razor
touch

You can save the violins, I've heard them much too
much
I'd crush them into sawdust and electrify my razor
touch

Are we having the same idea?
Are we thinking the same thing, same thing?
Are we having the same idea?
Are we thinking the same thing, same thing?

Are we thinking the same thing, same thing?

We came to fame with our guitars screaming
Wall-to-wall bass and face-to-face bawling
We're your voice of choice, so just fall in line

We came to fame with our guitars screaming
Wall-to-wall bass and face-to-face bawling
We're your voice of choice, so just fall in line

If you tell me your secrets
I can tell you my lies
Then we're both in the same boat
We're in disguise
