Okay everybody, we're the hi-tech gurus
All the rage, always on the front page news
TV and video, here to go-go
On Radio P.W.E.I., turn it on and turn it up high
Like a ten truck, don't give a fuck
And if you don't like the Poppies that's your hard luck

We cut and strut with military precision
All cards are marked, unanimous decision
It's finger-licking, finger-clicking
My mike sounds nice and the beat box ticking
Squeal like an eel, squirm like a worm
We're hot getting hotter, making ears burn, making
ears burn

Talking! Huh?
Talking! What?
Talking to you
(That's right)
Go

Let's turn it up
(Rock you)

We can rap we can sing a thing or two for you
We'll talk of anything, everything if you want, thing
The sky is the limit, the limit is the sky, why? P.W.E.I.
Say don't worry, no hurry to fret
No jest, the best is yet to come
And some are just dumb when they say it's no fun they
gotta learn

We're seriously delirious, the force is here with us
We ain't joking, we're just poking fun
At those poking guns up each others asses at each and
every turn
Rock so hard there's no time to roll
When the Poppies are on patrol, on patrol, on patrol

Talking! Huh?
Talking! What?
Talking to you

(That's right)
Go

Let's turn it up
(Rock you)

Radio, radio
Radio, radio
Radio, radio
Radio, the incredible

Talking! Huh?
Talking! What?
Talking to you
(That's right)
Go

Let's turn it up
(Rock you)
Let's turn it up
(Rock you)

Radio, radio
Radio, radio
Radio, radio

One-two check hi-tech in stereo, quadro
Anyway you go but loose, one-oh-oh-one uses
We got the juice to bruise the fuses
The volume in this room is much too groomed
We need a big bad boom
Noise K.O.! Disco inferno, hey ho yo, let's go

Gonna rock the show, blow the speakers, see them
glow
So now you know it's not what you do, but the way that
you do it
The speakers you blew but the way that you blew it
P.W.E.I. always knew it
We'll teach them all this song, it won't take long
Did it? We're through with it, hit it
