I am here 'cos you're here to be loved
I can hear that you fear to be loved
as a boy it's a joy to be loved
it's unreal yet you can't get enough
pretty boring stuff
pretty boring stuff
I'm alone when at home in the dark
there's a girl that I know of
this is the moment of our lives
the super love program
the love program is on tonight
you really turn me on
this is the moment of our lives
it has only just begun
the love program is on tonight
you really turn me on
do you feel it's as real as we are?
now I see you're not here anymore
I am here 'cos you're here to be loved
I am here 'cos you need to be loved
pretty boring stuff
pretty boring stuff
this is the moment of our lives
the super love program
the love program is on tonight
you really turn me on
