Glass jaw, alcohol whore
Cardboard cut out lying on the floor
Lame brain's drunk again
Stupid dumb dumb cold plumb insane

An alcohol whore is what I was before
Low life day's erased in a purple haze
Maybe, just a craze, a phase we were going through
Between me and you the habit continues

Sobriety's deserted me once again
Surrender to the offender and no saying when
Chewing on a bottle of ignorant bliss
And needs must at times like this

Glass jaw, alcohol whore
Cardboard cut out lying on the floor
Lame brain's drunk again
Stupid dumb dumb cold plumb insane

I've felt worse but I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice

Glass jaw, alcohol whore
Cardboard cut out lying on the floor
Lame brain's drunk again
Stupid dumb dumb cold plumb insane

I've felt worse but I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice

Wake up
Time to die

That old devil gravity having it's way with me
Bringing me down, surrounding me with misery
It was a high tide suicide, death ride, cut dried
Inside I can't hide though I've tried

Confidence crumbling, can't talk
I'm mumbling to myself
I stumbling for the top shelf
Get straight, got to decontaminate before it's too late

Glass jaw, alcohol whore
Cardboard cut out lying on the floor
Lame brain's drunk again
Stupid dumb dumb cold plumb insane

I've felt worse and I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice

Glass jaw, alcohol whore
Cardboard cut out lying on the floor
Lame brain's drunk again
Stupid dumb dumb cold plumb insane

I've felt worse but I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice

So nice, so bad
So nice, so nice
So bad, so nice
So nice

So nice, so bad
So nice, so nice
So bad, so nice, so nice
So bad, so nice, so nice
So bad, so nice

I've felt worse but I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice

I've felt worse but I've felt better
A human see saw to the letter
It makes me feel so bad
So nice, so nice
