"Melting Tongues"

Deep down I drown
Deep down I drown
Somehow I need more greenery
The moonlight shows your slit to me
To drunk no cum
To drunk no cum
Make me a monkey every time
Cave in the mattress tounge define the love

Revealing shadows
Show me echoes
I slide in baby
With my fingers
Clasp my prick
Drown your hip
Melting tongues
And all because I like you

You turn these golden times to rust
In front of my eyes
You turn these golden times to rust
In front of my eyes
