

Porcelain And The Tramps

"Disappear"

Visit "[Disappear](#)" on MotoLyrics.com

We made the world believe we didn't care
We gate crashed parties and just stood and stared
We moved to London and stayed in all year
Standing next to you I disappear

You made a choice for us to live it up
I've got a voice inside me saying give it up
Let's get out of here, let's find a new career
You be famous, and I'll disappear

Disappear - I erase myself again

I need security, you favour chance
I ponder everything, you advance
You bring the world to me and I just sneer
Standing next to you I disappear
