The other day I had to stop and think
And boy I love the way you get to me
So I took a hit and poured another drink
Your perfect frame is where I sucked it clean
Oh Yeah

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now
I love how easy you crawl at me
And the way it feels when you peel my clothes off me
The palm of my hand's where I hold the key
I fit you like the glove, it's not the ecstasy
Oh Yeah

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

Don't stop till you please me
Don't stop till you please me
Don't stop (can you feel me?)
, don't stop, (can you feel me?) don't stop, don't stop
Why don't you come over
and slip into something a little more comfortable
Slip into me

How does that feel baby
Oh wait dont tell me, I already know
I feel perfect
I feel deep in you

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

Don't stop till you please me
Don't stop till you please me
Don't, don't stop till you please me
Don't stop till you please me
(*keeps going until end)

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now

I can never stop myself from fallin over
You can never stop yourself from comin over
I can feel you comin closer and closer
Baby don't stop now
Baby don't stop now
