Hi, I'm your new neighbor.
Get me high.
If you need sugar just come by.
Late at night.
You know where to find me.

I've been on 700 trains.
Cutting some paper in toshapes.
And if you, need a friend then I could, I really hope I
Can be the one you lean on don't be shy.
I will try to behave, to be quite perfect in every way.
Every way.
Honestly, honestly.

If you hear my metal fix.
Don't bang the wall, try to make me quit.
I am not gods angel.
Late at night I melt my dolls.
Hang them up by nooses.
You're not livin' next door to an angel, angel!

Yeah.
I really thought you were aware.
That I could be your worst nightmare.
Say a prayer.
Cause you don't wanna hate me.
And if you, need a friend then I could, I really hope I
Can be the one you lean on don't be shy.
I will try to behave, to be quite perfect in every way.
Every way.
Honestly, honestly.

If you hear my metal fix.
Don't bang the wall, try to make me quit.
I am not gods angel.
Late at night I melt my dolls.
Hang them up my nooses.
You're not livin' next door to an angel, angel!
