Please baby... let's get it right
I don't think i can take it...one more night.
I know i love you, i love you, i love you as
Though the stars are mine
So please baby, show me that you are mine.

Please baby...let's not fight
I don't think i can take it...one more night.
I know i love you, i love you, i love you as
Though the stars are mine
So please baby, show me that you are mine.

Please baby...let's keep it right
I wanna make love to you baby
All through the night
I know i love you, i love you, i love you as
Though the stars are mine
So please baby, show me that you are mine.
