How much longer can we .... keep on mass  
Murdering our only interests our power  
And greed have we become what those  
Before us escaped from? Have we disregarded  
All of our beliefs? Self-righteous conquest and  
Rejection of the truth for disinformation money  
...see our potential with this world? how can...  
We go... on following our government's hidden  
Agendas we must fight.... back don't let  
Disinformation control your thoughts  
Never ending war.... till we have all felt the pain  
That is the end we now face. on this path of  
Destruction and they keep us from thinking' about  
It power getting richer as they keep us from  
Thinking' about if the masses ignorant as to  
Why we shed the blood of the innocent we must  
Keep on fighting for the ones who are to lost to  
For themselves this road to "peace" will end us  
All. will end us all!!! tear down the walls of illusion  
For the ones who simply turn their heads the price  
Of always being silent will be paid for with your  
Grave. with your grave!!!! tear down the walls of  
Their illusion for the ones who simply turn their  
Heads a blind death awaits your carcass you know  
Not of the pain thats ahead endless hate malice  
Revenge war pain and death never ending will you  
Fight? Or shun from the fate that's everyone's  
We must not just sit here and watch as we die  
Away so easy to forget, don't close, your eyes.
