So you have been of use  
And you have been abused  
You know you look pale today  
Your lipstick has gone astray  
You sold out and lost your looks  
You gave away all your books  
(You should drown with me)  
Your coil has been wound up tight  
Unwind it with me tonight  
(You should drown with me)  
Tyre tracks Fresh on the ground

Where she will be found  
Held under the water  
Resting there in a stream  
View from the cold water  
Buried in green  
Orange filter sky  
Your drowning in family there  
When will you come up for air  
(You should drown with me)  
Don't feel you let 'em down  
Cos they have already drowned  
(You should drown with me)
