### "Rest Will Flow"

I was pretending to be floating strong  
But I was sinking  
In to still water

Eyes closed  
All of the rest will flow

Then out of darkness I found I could still feel  
Something good  
Out of the woods

Eyes closed  
All of the rest will flow

One simple thing that I never could see  
But now I know  
All of the rest will flow

Stay with me my angel I found you  
Now I don't feel low  
All of the rest will flow

Eyes closed  
All of the rest will flow
