Up till the last time,
I've never felt this way
My breath that carried on with you
This is the first time
I've ever felt this way
My pain and misery you took away

I'm never gonna feel this way again
And i blame it on you

These things that i feel now,
Will they ever go away somehow,
Take my pain away with you,
How close do you feel to me,
And years goes by,
And no one cares for us,
And i blame it on you

Now that i know,
That i'm never gonna feel this way again,
I've seen you tonight,
And i can't bear that sight,
The world just falling on me

I've found you in my soul,
I've found you in my heart,
And i've loved you everyday,
But i hate you for tonight,
Cause i can't bear this feeling,
And i can't bear that sight,
And i wonder if i'd love you till the day i die...
