I am your ghost again
I heard you again
Please burn this page
One last time
I just wanna take of your memories out of my head

I use your voice
I use your words
In seven days everything's burn
Buring me
Join me
Tasting my ashes will be not the same

Put your hands up for yourself (x2)

FORGET THIS TIME (this is your time)

THE PAIN SURFACE (this is your pain)
FORGET MY NAME (this is your name)
FORGET NOW EVERITHINK

I use your voice
I use your words
In seven days everything's burn
Buring me
Join me
Tasting my ashes will be not the same

Put your hands up for yourself (x2)
