All she wanted me to do was help her cook the rice  
Can you help me please cook the rice  
I will get the knife the fork  
The napkin on the table  
All you got to do is help me cook the rice

How much butter?  
How much spice?  
Help me cook that rice  
Darling, won't you help me cook that rice  
Help me cook that rice  
Help me cook that rice

All she wanted me to do was help her cook the rice  
Can you help me please cook the rice  
I will get the knife and fork  
Napkin on the table  
All you got to do is help me cook that rice  
How much butter?  
How much spice?  
Help me cook that rice  
Help me cook that rice  
Help me cook that rice  
Help me cook that rice

How much butter?  
How much spice?  
Help me cook that rice  
Oh, darling, darling won't you help me cook that rice  
Help me cook that rice  
Oh please won't you help me cook that rice
