Got to be the first one  
Got to be the last one  
You got never get no peace of mind  
Never show emotions  
All communication's over, you  
Got no feeling

Stop it now, guess you wonder why  
You just sold out the dream inside  
Up and down, baby for your lovin'  
Baby we can fly up to the sky

[chorus]  
Every day every night crazy for love  
Into the dark of desire  
Every time everywhere crazy for love  
And now my spirit's on fire

When you get that feeling  
When you find some lovin'  
You've got to run away from here  
Show me your emotion  
Baby make me feel so natural  
It's the real thing
