Dear lonesome with a broken heart

If I could write myself a letter here's how I would start  
Dear lonesome with a broken heart  
How are things since she has left you has your whole  
world fell apart.  
Dear lonesome with a broken heart.

In answer to this letter I'd say yes, it's very true  
No lonely heart in all the world could feel the way I do  
If I could write myself a letter here's how I would start  
Dear lonesome with a broken heart.
